**Title:** Assessment of Wildfire Hazard Location for Federal and Public Use

Office: Council on Environmental Quality, in partnership with USFS, GSA, and Census

**POC:** Marissa McInnis <u>mmcinnis@ceq.eop.gov</u>

**Description of the Challenge:** Create a website and/or app that allows federal agencies and/or the public user if appropriate, to assess whether or not their property is located in an area of wildfire risk, as defined by the Wildland Urban Interface (WUI) guidelines set forth from USFS, DHS, and others.

**Hopeful outcome:** These insights will help agencies and/or the public be more wildfire-resilient, particularly with new and renovated federal facilities.

## **Skills Needed:**

Coding/development experience, GIS

## **Data Source:**
